

GCOE CARLS Symposium: General “Rational Animals, Irrational Humans”

9th-11th February, 2008

North Building Hall

Keio University (Mita Campus)

9th February

8:30-9:00 Registration

9:00-9:30 S.Watanabe Opening remark

Session 1: K.Goto

9:30-10:45 D.Lestel (ENS, France) “What does it mean to observe rationality?”

10:45-11:15 coffee

11:15-12:30 A.Blaisdell (UCLA, USA) “The role of associative learning processes in cognitive behaviors in rats and pigeons.”

12:30-13:30 lunch (Meeting Room 2 by invitation only)

Session 2: E.Izawa

13:30-14:15 A.von Bayern (Univ.Cambridge, UK) “Do jackdaws (*Corvus monedula*) perceive what others can and cannot see?”

14:15-15:00 C.Schloegl (KLF, Austria) “To see or not to see? Inference by exclusion in parrots and corvids.”

15:00-15:45 L.Castro (Univ.Iowa, USA) Learning of absence and absence of learning in humans and animals

15:45-16:00 coffee

Session 3: Y.Yamazaki

16:00-16:45 A.Seed (MPI,Germany) “Causal rationality in corvids, apes and humans.”

16:45-17:30 E.Freidin (Univ. Oxford, UK) “Starlings’ context-dependent valuation in simultaneous and sequential choices.”

17:30-18:15 R.Adam (Univ.Ruhr-Bochum, Germany) “The discriminating brain: hemispheric interaction and visual tasks in the pigeon.”

18:15-18:45 General discussion

18:45 - Reception (Faculty Club by invitation only)

* * * * *

10th Feburary

Session 4: Chair K.Miyasaka

9:00-10:15 L.Huber (Univ.Vienna, Austria) “Are animals really rational, intentional and efficient?”

10:15-10:45 coffee

10:45-12:00 A.Young (MacGill Univ., Canada) “The riddle of empathy in the evolution of social brains.”

12:00-13:30 lunch (not fixed)

Session 5: Chair Y.Itoh

13:30-14:45 H.Suzuki (Aoyama Gakuin Univ., Japan) “Reconsidering human intelligence from a biological perspective.”

14:45-15:30 C.Teufel (Univ.Cambridge, UK)“Mental attribution triggers automatic shifts of attention in response to gaze cues”

15:30-16:00 coffee

Session 6: Chair J.Ando

16:00-16:45 N.Dan (Univ.Tokyo, Japan) “Physical reasoning in infancy.”

16:45-17:30 N.Kondo (Keio Univ. Japan) “Stimulus equivalence relations in olfactory domain.”

17:30-18:15 Y.Yamazaki, A.Ogawa, and A.Iriki (RIKEN, Japan) “Neural mechanism subserving irrational inference in humans and its possible precursor in Japanese monkeys.”

18:15-18:45 General discussion

18:45-19:00 Business meeting on publication after symposium

* * * * *

11th Feburary

Session 7: Chair S.Umeda

9:00-10:15 M.Hasegawa (The Graduate University for Advanced Studies, Japan) “Killing your genes: Homicide among kin.”

10:15-10:45 coffee

10:45-12:00 M.Mimura (Showa Univ., Japan) “Impaired social cognition in brain damage and Parkinson disease.”

12:00-12:45 Y.Terasawa (Keio Univ., Japan) “Making moral judgment in daily life and underlying neural substrates.”

12:45-14:00 lunch (Meeting Room 2 by invitation only)

Session 9: Chair Y.Nishiwaki

14:00-15:15 J-Y.Girard (IML, France) “Logic vs. Intelligence.”

15:15-16:30 M.Okada (Keio Univ., Japan) “ Logic, Logicality and Logicability in Human, Animals and Machine.”

16:30-17:00 coffee

17:00-17:45 J-B.van der Henst (ISC, France) "Rationality and communication in the 2-4-6 problem."

17:45-18:15 General discussion

18:30- Farewell Party (Chinese Restaurant by invitation only)
